SUMMARY

Frontend developer with 6+ years of production experience, now focused on Shopify across both Liquid theme work and modern Hydrogen headless storefronts. I work solo and end-to-end with DTC brands — from the first founder call to the live storefront. Background also covers fintech, healthcare and SaaS dashboards.

SELECTED EXPERIENCE

Custom Shopify Hydrogen Storefront Sept 2024 — Jan 2026
Frontend Developer · Direct-to-founder freelance

- Rebuilt a generic Liquid template into a fully bespoke headless storefront on Shopify Hydrogen + Remix.
- Built a custom product configurator that generates unique variants on the fly via the Storefront API, with dynamic real-time pricing.
- Membership-based pricing tiers, multi-region storefronts (i18n), and ongoing post-launch maintenance.

Stack: Shopify Hydrogen · Remix · React · TypeScript · GraphQL · Tailwind · Storefront API · Supabase

Subscription & Courses Platform Aug 2023 — Sept 2025
Frontend / Backend Developer

- Built a club-membership and online-courses platform end-to-end: marketing site, paypal, member area, analytics.
- Implemented Stripe subscription flows, content management via Builder.io, and full-funnel analytics.

Stack: React · Next.js · TypeScript · Stripe API · Builder.io · Supabase · Mixpanel · Klaviyo · Tailwind

Subscriptions Management Scripts Sept 2023 — Oct 2024
JavaScript Developer

- Automation scripts for adding, updating and cancelling subscriptions across customer cohorts via Stripe API.

Stack: JavaScript · Stripe API · XLS data pipelines

Healthcare Analytics App May 2023 — Sept 2023
Frontend Developer

- Web application for interpreting health analysis results for patients and doctors, with rich charts and clear data visualization.

Stack: Vue.js · Vuex · Python · Django · Axios · SASS

Company Patent Platform Sept 2022 — May 2023
Frontend Developer

- Statistics, charts and reports on company patents with AI-generated competitor insights, plus blockchain-based registration & purchase flow.
- Public speaking, code review, and technical communication.

Stack: React · Redux · Redux Saga · TypeScript · Recharts · Styled Components · Storybook · React-i18next

Fund Managers & Investors Portal Oct 2021 — Aug 2022
Frontend Developer

- Portal for fund managers with an extensive database of funds, complex charting, and multi-organization management.

Stack: React · Redux Toolkit · TypeScript · Chart.js · Material UI

Earlier work 2019 — 2021
